

Introduction

My name is Abdullah Al Jiad, and I am a web developer with over 2 years of experience. I am currently a student at Daffodil International University, where I am studying Computer Science and Engineering. I am passionate about web development, and I am always looking for new challenges. I am a highly motivated and self-driven individual, and I am always willing to learn new things.

Technical Skills

I have a strong understanding of the following web development technologies:

- HTML
- CSS
- JavaScript
- PHP
- MySQL
- React
- Angular
- Node.js

I am also familiar with a variety of other web development tools and frameworks.

Work Experience

During my time as a web developer, I have worked on a variety of projects, including:

- A website for a local business
- A web application for a university
- A mobile app for a startup company

I have also contributed to a number of open source projects.

Skills and Abilities

In addition to my technical skills, I also have a number of other skills and abilities that make me a valuable asset to any team. These include:

- Excellent problem-solving skills
- Strong communication skills
- Ability to work independently and as part of a team
- Attention to detail
- Ability to meet deadlines

Personal Qualities

I am a friendly and approachable person, and I am always willing to help others. I am also a hard worker, and I am always willing to go the extra mile. I am confident that I would be a valuable asset to your team.

Conclusion

I am a highly skilled and experienced web developer with a passion for my work. I am confident that I can use my skills and abilities to help your company achieve its goals. I am eager to learn more about your company and the projects that you are working on. Thank you for your time and consideration.

I hope this helps!
